

Stakeholder Requirements Document: Original Smart Masters

BI Professional:

Josiah Lewis

Client/Sponsor:

Original Smart Masters

Business Problem

How are sales performing across different categories, sales personnel, and time periods? Which product categories and sales persons are driving the most revenue and gross profit? How healthy is the sales pipeline, and what is the opportunity win rate? How can Original Smart Masters use data insights to improve sales strategy and operational efficiency?

Stakeholders

Name	Role	Primary Interest
Head of Sales	Executive Sponsor	Overall sales performance and revenue targets
Sales Manager	Operations	Sales person performance and pipeline management
Finance Manager	Finance	Gross profits, outstanding amounts, invoicing
Business Dev Lead	Strategy	Opportunities, win rate, pipeline health
BI Analyst	Technical	Data accuracy and dashboard delivery

Stakeholder Usage Details

The dashboard will be used on a daily, weekly, and monthly basis by the sales and finance teams to monitor KPIs and guide decision-making. Executives will use it for quarterly business reviews. The Sales Opportunities page will be reviewed continuously by the Business Development team to manage the active pipeline.

Primary Requirements

Must-Have (R)

- Must display key financial KPIs: Total Sales , Invoices Amount , Outstanding Amount , Gross Profits , and Gross Profit Margin
- Must show sales contribution breakdown by individual sales person with percentage shares
- Must display sales volume and revenue by product category
- Must include a monthly sales trend line chart covering all 12 months
- Must include time intelligence comparisons: YTD sales and gross profits by year (2021–2025), MTD sales by year, and period-over-period (POP) growth
- Must show sales pipeline metrics: total opportunities , opportunities in progress , opportunities won and a win rate indicator

Should-Have (D)

- Should show category-level profitability percentages
- Should display gross profit vs. total sales by category in a comparative bar chart
- Should show MTD gross profit trends by individual sales person
- Should display estimated opportunity value by customer
- Should include sales cycle stage funnel (Closed Won → Proposal → Initial → Sign Contract → Presentation → Qualification → Closed Lost)
- Should show estimated pipeline value and calculated current value

Nice-to-Have

- Quantity sold by product category donut chart
- Sales Total breakdown by document type (Invoice, Order, Credit Memo, Return Order, Sales Credit Memo) per sales person
- Equal estimated value distribution view across all 7 sales persons
